

Stenhøj SIPA Series

Stenhøj SIPA Series

Stenhøj piston compressor – Silence Pack

STENHØJ's renowned piston compressor is contained within efficient sound insulation on this model, making the compressor ideal for installation indoors. The Silence Pack SiPa model is a complete unit, with compressor and filter equipment. It is particularly suited for goods vehicle workshops, as it is available in a 15 bar version.

The built-in fridge dryer- and the configuration of dry tank and filters – ensure high air quality (including respirator quality) air.

The built-in hour gauge makes it possible to monitor number of hours in operation, and to plan service intervals. Pressure can be read on the display and differential pressure can be quickly set using the keyboard.

STENHØJ Kompressor's design makes handling easy, using the built-in lifting slots in the frame making it easy to move.
